Jane Example

DATA LEAD | ANALYTICS ENGINEERING & COST ANALYTICS

Tel Aviv | +000 00-000-0000 | jane@example.com | linkedin.com/in/jane-example

PROFILE

Hands-on data lead who turns raw operational and billing data into numbers a business can trust. Owned the data layer end to end at ExampleCo: SQL and Python ETL/ELT, BI-ready models and reporting for engineering and finance. Comfortable moving between engineering rigor and business questions such as why a metric or a cost moved.

SQL / ETL & DBT / BI & KPI MODELS / CLOUD COST ANALYTICS

PROFESSIONAL EXPERIENCE

ExampleCo / Data Team Lead

Jan 2021 - Present

- Owned a multi-cloud cost model across three providers, supporting normalization, allocation and chargeback reporting.
- Delivered self-service BI dashboards so product, finance and operations teams could track KPIs without analyst help.
- Built ELT workflows with SQL, Python and an orchestrator; diagnosed freshness gaps and reporting inconsistencies.
- Led and mentored a team of 2 engineers while staying hands-on with modeling and performance tuning.

SampleSoft / BI Developer

Mar 2018 - Dec 2020

- Wrote SQL transformations and BI models that turned complex raw datasets into actionable reporting.
- Partnered with stakeholders to define metrics, validate outputs and troubleshoot data issues.

TECHNICAL SKILLS

Analytics engineering and BI: SQL, dbt, ETL/ELT, data modeling, KPI definitions, Looker

Warehouses and tooling: Snowflake, BigQuery, PostgreSQL, Python, AWS, Docker

EDUCATION

B.Sc. Computer Science | Example University
